

PHILIP MORRIS INCORPORATED
INTER-OFFICE CORRESPONDENCE
RICHMOND, VIRGINIA

To: . File Date: June 23, 1966
From: . Thelma C. Heatwole
Subject: . Tobacco Smoke Filter - Wallace G. Lloyd, Helf.#582-457

In a telephone discussion with Mr. Kothe, after having checked with W. G. Lloyd, I told Mr. Kothe to proceed with preparing an Amendment on this application. It is most probable that the Examiner will allow the case if the Amendment answers his objections.

The Examiner wanted the case limited to one specific adhesive, polyalkylene glycol, for use with specific mesh sizes of the carbon. We felt that this would give us adequate coverage and, consequently, are writing the Amendment to cover these limitations.

Thelma C. Heatwole
